

Air intake/exhaust KWOV

Made of
aluminium

Single-piece
casting

Protective
mesh

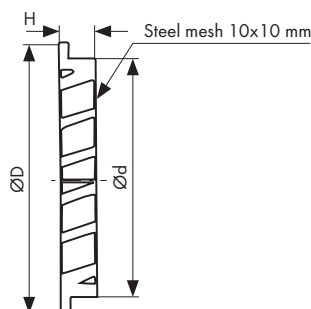

Can be
coloured

Description

Air intake/exhaust vent "KWOV", depending on the purpose, can be used as air intake vent in air supply systems or as air exhaust vent in all types of ventilation. Air intake/exhaust vents are secured on one side by a galvanised wire mesh of 10x10 mm, 1 mm thick. Air intake/exhaust vents are made of cast aluminium.

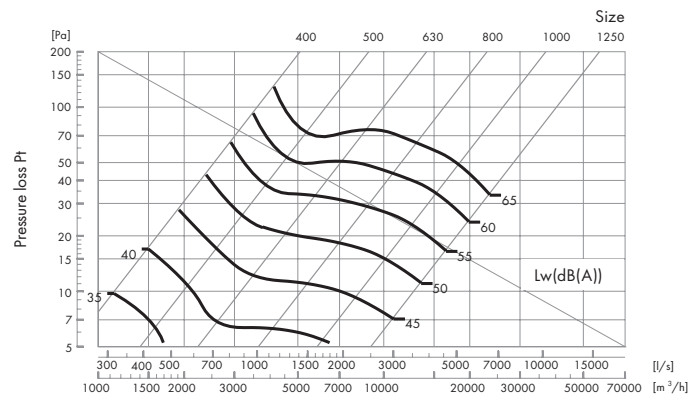

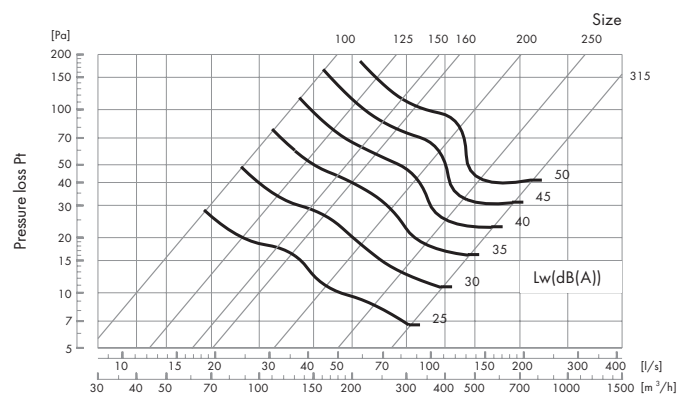

Technical drawing

Dimensions [mm]

Model	ØD	Ød	H
KWOV 100	125	97	20
KWOV 125	150	122	20
KWOV 150	180	147	18
KWOV 160	185	157	18
KWOV 200	225	197	20
KWOV 250	275	247	20
KWOV 315	350	312	20
KWOV 400	440	397	40

Characteristics

Efficiency

The chart describes the total pressure P_t [Pa] and sound level L_W [dB(A)] as a function of airflow q [l/s, m³/h].
